

## SHOWER CABINET & GLASS DOOR PROFILES

Mold, Fungi &  
moisture resistant

Water resistant

UV resistance &  
Heat insulation

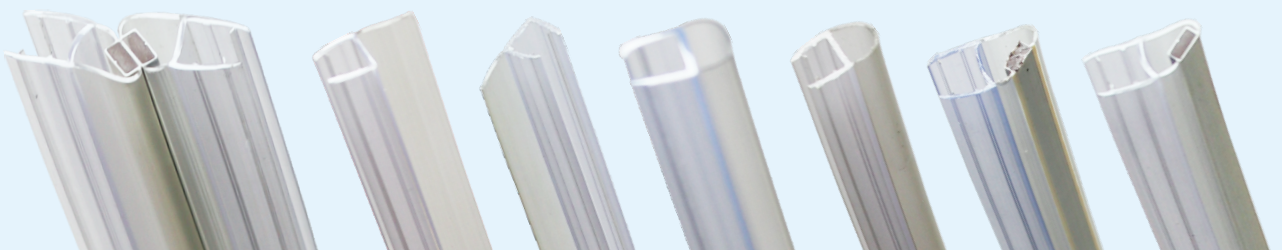

RoHS complied  
material

Durable & high  
impact strength

Easy to install  
& clean

## Description

Shower Seals are used for horizontal and vertical application to unframed and framed glass. Shower Seals are a mandatory element in every shower enclosure. Water does not spill out through the gaps because of the seals, and the bathroom floor remains dry. The offer includes three types of shower seals: straight, for rectangular and square cabins; half-round or curved, for rounded cabins, and magnetic, designed to seal the cabin door. The wide range of shapes and lengths of the models makes them suitable for most enclosure available on the market. These are easy to fit as they grip glass strongly and seal in the water. ALP Shower seals are designed to ensure excellent water resistance and heat insulation performance. These seals are made with RoHS compliant material and don't turn yellow even after years of usage saving from the regular hassle of replacing the same.

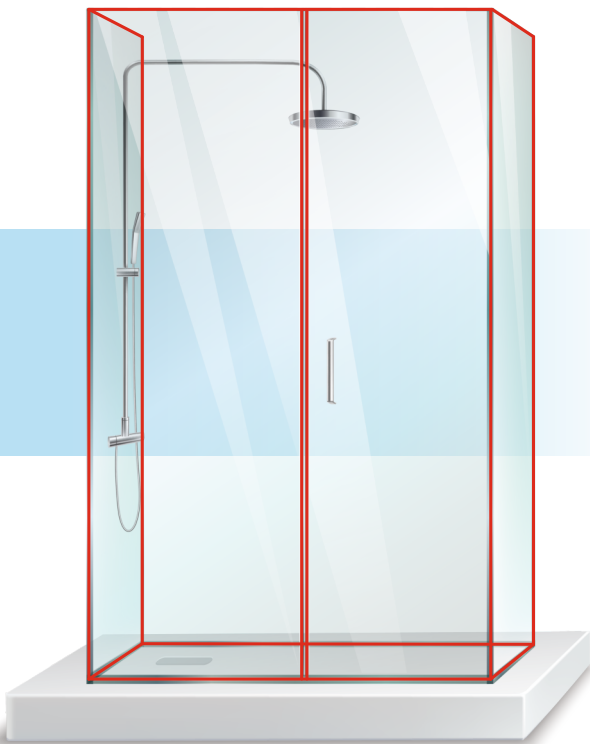

## Technical Specification (Rigid Transparent PVC)

Properties	Value	UOM	Standard Applied
Density	1.3 ± 0.05	g/cm <sup>3</sup>	ASTM D 792
Hardness	80 ± 5	° Sh D	ASTM D 2240
Tensile Strength	≥25	MPa	ASTM D 638
Elongation at Break	≥10	%	ASTM D 638
UV Resistant	4	Grey Scale	ISO 105 B06
Magnetic Strength	Min. 1100 Gauss	Gauss	
Refractive Index	1.5		
Temperature	- 10° to 70° C		

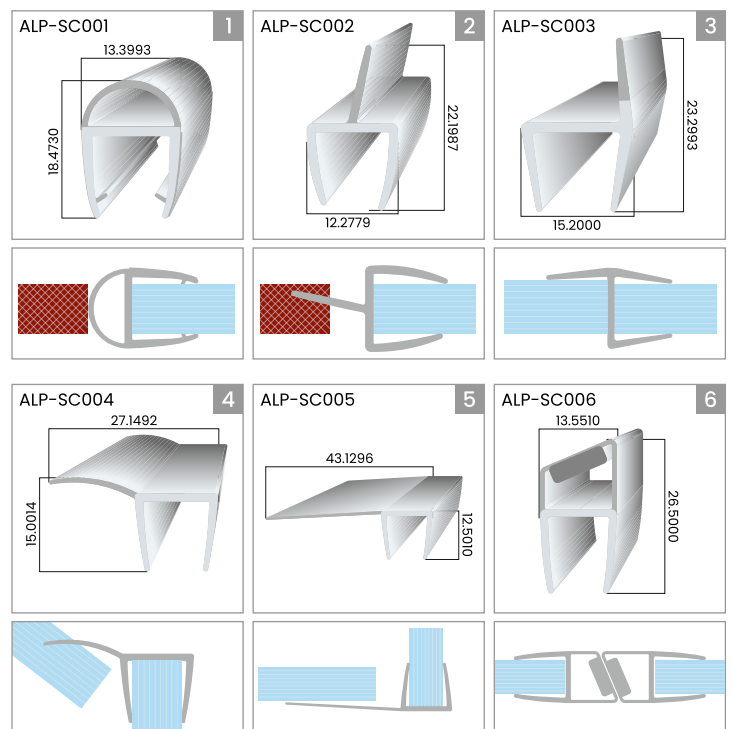

## Technical Specification (Soft Transparent PVC)

Properties	Value	UOM	Standard Applied
Density	1.2 ± 0.05	g/cm <sup>3</sup>	ASTM D 792
Hardness	75 ± 5	° Sh A	ASTM D 2240
Tensile Strength	>10	MPa	ASTM D 638
Elongation at Break	>250	%	ASTM D 638
UV Resistant	4	Grey Scale	ISO 105 B06
Refractive Index	1.5		
Temperature	- 10° to 70° C		

## Application Area

## PRODUCT RANGE of 8mm & 10mm

Manufactured and Marketed by:

**ALP OVERSEAS PVT. LTD.**

**Corporate Office:** Plot No. 32, Sector-18 HUDA, Gurgaon, Haryana - 122015 (INDIA)
